

GEOGRAPHY

This course studies the interaction between the physical and human world, and emphasises the dynamic nature of geography – how places, environments and issues change, and how people respond to these changes.

The modern study of geography has links with so many other disciplines such as Sociology, Politics, Anthropology, and Economics. It is therefore an extremely useful background subject for many degree programmes.

MODULES STUDIED: Examining Board – Edexcel

Unit 1:	<u>Physical Environments</u>	Exam Length: 1 hr 15 mins 15% of total marks
Unit 2:	<u>Human Environments</u>	Exam Length: 1 hr 15 mins 15% of total marks
Unit 3:	<u>Applied Geographical Skills</u>	Exam Length: 1 hr 30 mins 20% of total marks
